OUR SPECIAL ROPORT.

BOAID OF ASSISTANTS

This Board met at six o'clock yesterday evening, pursuant to adjournment. The President in the Chair.

The following resolution was presented by Mr. McConsex, of the Twentieth ward:—

Resolved. That the Street Commissioner be, and he is bereby directed, in the building of the pier ordered at the foot of Tairtieth street. North River, to place a block on the outer end, on the line of the Thirteenth avenue or exterior city line.

Mr. Bouros said that Alderman Peck, who lives right by the pier in Thirtieth street, spoke to him about this matter, and the necessity which existed for a protection to the pier from the ice which floated down the river during the winter and spring. I at once, said Mr. Bouton, concurred with him, for I knew that during the winter asson there would be great danger to the pier from the large masses of ice which are carried down the river during that exason. Unless some security is placed at the end of this pier, while it is in process of construction it will be greatly damaged, and large amounts of money will be lost to the city.

Mr. Woonward—I hope it will be referred to the appropriate committee.

Mr McConkry—It is necessary to have this pier secured while in process of construction, for, during the winter and spring, the lie comes down, at this point, with

Mr McCosker-It is necessary to have this pler secured while in process of construction, for, during the winter and spring, the fee comes down, at this point, with great force in consequence of the rapidity of the current. The motion on its reference, was put and adopted. The following preamble and resolution were then read, and referred to the Committee on Arts and Sciences, composed of Messre. Brown. Woodward and Backer.—Whereas, the Congress of the United States pays so much per column to public journals irrespective of their party predelictions, for printing the congressional debates; and

Courier ond Enquirer, and Express, for the same purpose, and under affidavit as to their dully circulation—the five selected journals to be paid \$20 per column for printing the Common Council debates.

Brooklyn City Intelligence.

Collision of Firmy Boats.—About II o'clock, yesterday morning the South Ferry boat Wyandank and the Montauk plying from Bamilton avenue, came in collision on the New York side of the river. It seems the Montauk was ecoming out of the slip at the time of the accident, while the other boat was coming in. Considerable excitement prevailed among the passengers for a short time, but no one was injured. The Wyandank had her stauncheons and the railings on her bow carried away, and the gentlemen's cablin was somewhat splintered. She was tamediately hauled off, and is now undergoing repairs on the Brooklyn side. The Montauk had her braces broken which was all the damage she sustained. She continued her trips, as usual during the atternoon.

Fatal Effect of a Fall.—On Thursday, a gentleman named A Moore, accidentally stumbled over an obstacle on the pavement, on the corner of Plymouth and Gold streets, and striking his head against a curb stone, sustained a fracture of the scall. He was taken to his residence in Gold street, by the Second district police, where he died yesterday afternoon. An inquest was held over the body, by Coroner Ball, and a verdict of accidental death was returned by the jury.

Infinity of the South Brooklyn, including Red Hook Folnt, are perfectly actoniching. A sufficient number of houses have sprung up, in this section of our city, within a year or two past to constitute quite a large town. The louse, toe, are almost without exception of the first class, and some of them would ornament Fulton or Atlantic street. On the Point H. Alexander, Jr., is building a large bleck, and others are also crecting. Hamilton avenue, which until recently, was hardly more than a farren waste, now presents upon one side, ranges of sub-

lal buildings, from the ferry to Hicks street; while

stantial buildings, from the ferry to Hicks street; while, on the streets intersecting, upwards of a husdred buildings have been put up during the summer, most of which will be ready for occupation this fall. On First, Second, and Third piaces, elegant structures, with brown stone and marble fronts are aiready effected and going up. Bergen Bill, in this neighborhood, is fast dwindling away, and it will not be long before its site will be studded with handsome buildings. The ground hare is clovated making it desirable as a place of residence, and it promises to become, in a few years, to Brooklyn. what portions of "up town" are to New York—the fashionable quarter of the city.

ATTEMPTED SUREDE—A colored man, known by the name of Black Harry, cut his throat with a jackknife, on Sunday night last. He was found about one o'clock Monday morning in an unoccupied shed near the Catharine forty from whence he was taken to the Hospital by officer Austin. of the Second district police. It is thought his wounds will prove fatal. He is well known in the neighborhood of the ferry; but no one seems to be aware of the cause that impelled him to commit the rash act.

MIDSURITY ASSAULT.—A man named Johnson was attacked at the foot of Baltic street, on Sunday night, about 12 o'clock, as he was returning to his home in the neighborhood, and beaten in such a shocking manner that his life is despaired of. He was found lying near the dock, in a state of insensibility, by officers Watson and Fox, of the Third district, and conveyed to his house. The perpetrators had made their escape.

The Kinos County Boans of Superavisors—The annual meeting of the Board took place on Tuesday, at the county jail, and was organized by the selection of Dr. A. J. Berry, chairman, and Charles B. Buikely, clerk, for the ensuing year. A statement containing an account of all the fees received by the Surrogate of Kings county during the past year, was submitted, by which it appears that \$3.22.27 is the sum total. The communication was directed to be placed

proposed County Lunatic Asylum. The Board then adjourned, to meet at the same place on Tuesday next.

Wood's Ministranis.—This popular company continue to be well patronized. Their delineations of the Ethiopian character are very correct fand well merit the marked applianse which they nightly receive. The selection for to-night is highly attractive.
